# Featured Seminar

# Treatments

## Sapphire Abrasion & Cold Laser Anti-Aging

This facial generates a lot of hype, during the hour you will see saggy eyelids lifted, dark circles and puffiness reduced. The skin will glow and be as radiant as Sharon Stones or Jennifer Lawrence (both have this treatment regularly). This facial has been featured in Lainey's Celebrity Gossip Column. This facial is suitable for Aging, Acne and Rosacea skin.

## Microdermabrasion, Mesotherapy & EMS Lifting

This facial incorporates microdermabrasion to reduce large pores and exfoliate dead skin cells. Needle rollers are used in the medical field for opening up hydration channels in the skin and for stimulating the body's own production of collagen. During this facial we use wave currents instead of needles on our derma roller; the results are better and without discomfort. We then follow with EMS, an electro stimulation that tightens muscles and loose skin. This is the hottest and newest esthetic treatment on the market!

## Dr. Belter Radiance Collagen Facial

This facial incorporates our new Enzyme Peeling Powder to reduce large pores and dead skin cells. We will be featuring our new Lumination Secret Mask to lighten age spots. We will then follow with our patented Stem Cell Pure Collagen Treatment to further enhance the radiance and appearance of the skin. For those of you who have never experienced a freeze dried collagen mask on your face before, you are in for a treat! You will be amazed at how great it performs, and what it does for fine lines and wrinkles.

## Caviar Treatment

This Peel- off Rubber mask removes skin impurities, and refreshes the skin by infusing botanicals and vitamins deep below the skin surface.

## Thermo Modelage For Anti-Aging

Ampoules and highly effective skin therapies are applied to the skin through fan brush effleurage, then infused directly into the skin by a warm occlusive modelage preparation.

## Rosacea Couperose Treatment

Red inflamed, spider veins.

## Pure Collagen Treatment

CV soft lifting fleece collagen or phyto collagen for scarring, sensitive, and anti-aging skin.
