

Free Microdermabrasion with \$10,000 opening order of Dr. Belter skincare

"My profits have **doubled** thanks to the Champagne and Collagen Silk Facials. My clients love the feel of Dr. Belter's products on their skin and love the results they are getting" MK

"Dr. Belter is a fantastic European line! I really like the low product cost, bulk order discounts and free shipping charges." AB

"My clients were tired of the same old skincare line that I was using; it was time for a change so I bought an Abrastim cold laser machine and switched to Dr. Belter. **My client's love it!** My customer retention has improved and I am getting tons of referrals for my facials." JH

Medi-Peel Diamond Microdermabrasion Hot/Cold Toning Therapy Ultrasonic Ultrasound

The **Medi-Peel with diamond tipped wand** polishes the face and body beautifully and effortlessly. The system comes complete with microdermabrasion, hot and cold toning therapy as well as an ultrasound facial and body toning device.

A Diamond peel treatment is a non-surgical procedure in which the skin is exfoliated to remove dead skin cells using actual diamond chips to vacume the skin away. The Epidermal cell structure is actually restored, increasing the skin's elasticity and collagen levels!

During a Diamond Peel, a skilled professional gently runs a hand-held device with a diamond tipped wand over the skin. A steady layer of diamond dust is applied to the skin and then vacuumed away, exfoliating away dead skin around the eyes, nose, and mouth. Wands of different coarseness are also used on spots of the face where the skin is more sensitive. Each treatment should take about 20 minutes, but may take longer depending on the special needs of your skin. For instance, if you are getting treatment for deep stretch marks or another specific skin condition, the procedure will take longer because they require more thorough, focused work. Diamond peels typically cost around \$100 to \$200 per visit.

Dr. Belter Skincare is a comprehensive professional care system with 11 lines covering different price ranges. All the products are of the highest quality and manufactured in Germany. The ingredients are 95-100% natural medicinal plant extracts such as Photocell, DMS, and Matricol. All products containing patented ingredients are supported by clinical studies and proven to work. The Dr. Belter line has been tested to work with microdermabrasion and is highly compatible and physician recommended.
