Silk Treatment

- The DR. Belter **Silk treatment** unites the tender feeling of silk fabric on the skin, and the silky soft texture of the Bio-Classica Silk formulations. The highlight of this treatment is the **silk-scarf-ritual** that we use in order to make the silk subject/content tangible to client.
- cleansing *Bio-Classica* Velvety Cream Cleanser + *Bel-Energen* Microcrystal Cream Peeling – mix, apply – cleanse – remove
- *Bio-Classica* Fresh Blossomy Tensum – soak cotton pad and complement cleansing
- Dry the skin with a soft Kleenex to make sure the **silk scarf** can glide over the face!
- silk-scarf ritual surface-sliding with the help of a handmade **silk-scarf**
- Let the **silk-scarf** glide over face and neck in a smooth way for about 2 minutes. Start with at the forehead and work down to décolleté. Be creative and finish by folding the scarf over the face like a towel, and then apply pressure under the chin. It is important to have continuity as a set ritual, instead of random movements.
