PROFESSIONAL CARE CONCEPT

»SUN«  
experience the sun -  
enjoy care and protection...

The new »sun« protection milks for face and body protect sensitive skin from sunburn and other harmful effects of the sun.

The formulas use proven UVA & UVB protection ingredients, pigments as well as biological cell protection complexes. The non-greasy fluid textures are free of mineral oil, PEG, emulsifiers, colorants and fragrance.

Even while sunbathing, they provide moisture to the skin leaving it well-balanced and healthily tanned. Sun-induced skin aging and the formation of hyperpigmentations is effectively prevented.

The new sun protection milks SPF 20, 30, 50+:

- ▶ free of mineral and silicone oils
- ▶ free of parabens, emulsifiers and PEG
- ▶ free of perfume and colorants
- ▶ with biological cell protection complexes
- ▶ suitable for children
- ▶ quality - made in Germany
