## MISSION

Through the seamless fusion of science and nature, Medispa Naturals is committed to providing clients with effective skincare treatments and luxurious skincare products especially formulated using only the best natural ingredients that are environmentally friendly.

With every product sold, a portion of the proceeds will go towards an organization that will plant trees, save endangered animals, and prevent cruelty to domestic pets. Medispa Naturals will financially contribute to ending degradation of the planet's natural environment and to building a future in which humans live in harmony with nature.

## VISION

Medispa Naturals is dedicated to consistently providing high customer satisfaction by rendering excellent service, quality products, and furnishing clients with luxurious, eco-friendly, and affordable beauty products. Medispa Holdings Inc. will also maintain a friendly, fair, and creative work environment, which respects diversity, innovation, and hard work.

## COMPANY OVERVIEW

Medispa Naturals is a skincare manufacturing division of Medispa Holdings Inc. The division was formed in response to market demand for affordable, high-quality, natural European and Canadian skincare products made with environmentally friendly ingredients by a company that shared the market's values for being eco-friendly and harmonious with nature.

As such, Medispa Naturals acquires selected skincare products from hand-picked manufacturing laboratories from France, Germany and Canada and packages them in Canada, and donates a portion of the proceeds to charitable causes such as planting trees, saving endangered animals, and preventing cruelty to domestic animals. This message is communicated artfully on all the boxed retail products. Each product represents an animal that is saved.

Medispa Naturals vows to never include any harmful substances in any Company product. All the fragrances and scents are made from safe dilutions. The propylene glycol found in some of the products is certified natural and made from soy and corn not petrol. Medispa Naturals was inspired by the David Suzuki Foundation. In 2010, researchers at the David Suzuki Foundation reported that one in eight of the 82,000 ingredients used in personal care products are industrial chemicals that include carcinogens, pesticides, reproductive toxins, and hormone disruptors.

Medispa Natural's is located in Beautiful Nanose Bay, BC. Vancouver Island is home to some of the most prestigious spa resorts destinations in Canada. It is centrally situated on Vancouver Island amongst internationally renowned spas on a beautiful 8 acre farm. Due to micro climate in Nanose Bay, the company supplies an important ingredient found in the Medispa equipment gels & massage products. Horse Tail which is only found in 20 regions in the world, 10 of which are in BC and 6 are found on Vancouver Island. The herb Horse Tail that is in some of the products is sourced from the exclusive and private Medispa pesticide free (organic) family farm.

## PROMOTIONAL INCENTIVES

Medispa Naturals feels that most people want to be a part of a club for ongoing support and have a sense of belonging to that organization. Medispa Naturals has partnered with a registered Aesthetics training school on Vancouver Island to assist with online curricular education on skincare and Medispa Naturals treatments and protocols. This course will be available online for all members. The fee to join the exclusive Medispa Naturals ingredient aesthetic schoolology course will be waved for approved members.

10% of all Medispa Naturals subtotaled orders will be awarded back to our clients in promotional marketing such as samples and retail bags. There is no better way to market than by giving free samples to your clients compliments of Medispa.

Orders that exceed \$2500 will be awarded a high volume VIP bonus product gift. This is to thank our high volume clients for exclusively marketing Medispa Naturals. We reward when you work hard to promote Medispa Naturals, this promotion is in addition to our regular daily order promotions. Our ongoing standard promotions include free shipping on orders that are \$150 CAD, \$350 USD or higher, and free product when 6 or 10 of the same item is purchased.

Rewards run deep with Medispa Naturals when you are loyal and committed to supporting Medispa Naturals and our endeavor to save animals. Buying and selling luxurious products at delightfully low prices will deem effortless. We have been told we have the best skincare at the best prices, we keep our fees low so you can sell more.

We want you to be successful at your spa, and education is the key to success! One on one training with a pro is available to you, or complete our 2 hour product knowledge course online. Whatever your needs are we are here to help and to take care of you.

Refer a spa business to us, and we will double our donation amount from their first order to the local SPCA in your neighborhood. It will feel good recommending a fellow colleague to us knowing your referral is helping to prevent cruelty to domestic pets in your area. Your contribution will make a difference to helpless animals!

## WHY OUR PRODUCTS ARE UNIQUE

Medispa Naturals Skincare is a dermo-cosmetic, meaning our skincare products are made by pharmaceutical chemists that have scientifically reduced the molecules of the ingredients to allow for better absorption into the skin. Better absorption of ingredients allows ingredients to work better and produce better results. A dermo-cosmetic is made in such a way that there is a sensation experienced while using them. While the product is applied to the skin a 10-30 second sensation of either warming, cooling or soothing is encountered. This feeling is the product penetrating deep into the skin to enhance results. No residue is left on the skin. The products are perfectly absorbed into the skin for top performance.

Medispa naturals skincare uses topical creams and lotion made of ingredients available from natural, plant-derived ingredients, which may include herbs, flowers and essential oils. Natural substances may also include animal-derived products like beeswax and minerals. Our products are 99% vegan with amino acids that mimic our own collagen in our skin.

Plant extracts and herbs have been used by many cultures as cosmetics and perfumes since ancient times, and now with modern knowledge, the abundance of natural ingredients are widely recognized for their genuine effectiveness in enhancing the health and vitality of the skin and hair.
